

## Nintex Workflow 2007 – 2 days

### Course Overview

The content of the course covers the following topics:  
Installation and configuration of Nintex Workflow - upgrade issues etc.  
Workflow fundamentals and Introducing Nintex Workflow designer, Rich Workflow designs using Nintex Workflow designer, Advanced Workflow Design capabilities with Nintex Workflow, Creating State Machine workflows with Nintex Workflow.

### Prerequisites

This course is a demanding two days aimed at delegates that are already experienced users of SharePoint 2007. No prior knowledge of Nintex Workflow is needed but some previous experience of Nintex Workflow 2007 would be an advantage. It would also be an advantage if you have experience of creating workflows in Microsoft SharePoint Designer or Visual Studio.

If you have not used Nintex Workflow before we recommend that you watch the Nintex overview videos prior to attending.
